

Hong Kong Takes A Big Step Towards Saving the Planet!

The Legislative Council of Hong Kong (LegCo) passed a new law called the Product Eco-responsibility (Amendment) Bill 2023. This exciting development is all about making our city more sustainable and moving towards a greener future!

So what does this new law mean? The ban focuses on regulating disposable plastic tableware, the things we often use once and then throw away to the landfill. The changes will happen in two phases. First phase is expected to roll out on April 22, 2024.
